EDUCATION

Honours Bachelor of Arts in *Rhetoric, Media, and Professional Communication – Co-op Internship Program*
University of Waterloo, Waterloo ON Canada, May 2025

AREAS OF EXPERTISE

Technical Documentation | Agile & DevOps | Stakeholder Communication | DITA XML HTML/CSS | JIRA | Confluence | Microsoft 365

PROFESSIONAL EXPERIENCE

Technical Writer

Jan 2023 - Sep 2023

Wind River Systems (Ottawa, ON)

- Create enterprise-level documentation for custom Linux distributions within a global embedded software environment
- Author and restructured technical documents for proprietary Linux distributions, translating complex system configurations into structured, user-focused deliverables aligned with DITA CCMS standards (Darwin Information Typing Architecture; XML-based structured content architecture)
- Facilitate the migration and reconfiguration of legacy documentation into DITA-compliant architecture, improving content modularity, reuse, and cross-team collaboration
- Enhance digital documentation interfaces by identifying and resolving front-end issues using HTML/CSS, while conducting structured UI testing to improve accessibility and user experience
- Elevate documentation clarity and technical accuracy through comprehensive content audits and revisions, ensuring alignment with engineering specifications and release standards
- Develop research-driven instructional design presentations to support course architecture planning, aligning technical content strategy with broader organizational training objectives

Content Writer & Graphic Designer

Sep 2021 - Aug 2022

University of Waterloo IT Office Helpdesk (Waterloo, ON)

- Construct technical documentation for hardware/software processes and training materials
- Fulfil QA validation on structured datasets and system outputs, applying relational database concepts to identify inconsistencies and improve data accuracy
- Simulate real-user interactions in Agile/DevOps environments
- Provide technical support using JIRA, Confluence, Skype for Business, and MS Teams
- Manage faculty websites: site mapping, link validation, newsletters, news items, and service catalogs

Instructional Designer & Graphic Designer - Internship

Jan 2024 - May 2024

Dematic KION Group (Waterloo, ON)

- Develop onboarding and training documentation for enterprise engineering and materials-related software aligned with Hexagon Smart Materials (Smart Plant Materials) workflows (BOMs, requisitions, inventory data concepts)
- Partner with engineers and SMEs to translate materials and procurement system processes into clear, structured documentation for end users
- Author workflows involving data exchange between engineering and operational systems, including structured file inputs and system outputs
- Collaborate with engineers to support integration-aware documentation, ensuring data dependencies and handoffs are clearly defined
- Produce 60+ technical documents for Dematic Certification partners ensuring clarity and accessibility
- Lead integration of technical content into a cohesive course, streamlining publication and improving user experience

Policy Analyst - Internship

Jan 2021 - Apr 2021

University of Waterloo (Waterloo, ON)

- Perform client-focused policy analysis to support solution development for financial accessibility challenges affecting BIPOC communities
- Conduct outreach and cold calling to prospective clients/stakeholders, communicating program value and gathering needs-based insights to support engagement strategies
- Ensure solution-oriented conversations to close informational/engagement loops with stakeholders by providing the appropriate services and next steps
- Analyze financial policies, admission requirements and accessibility barriers across U15 Canadian research universities
- Organize all online learning platforms and educational software for multiple internal clients at the University of Waterloo
- Organize and facilitate onboarding sessions for professors to improve adoption and effective use of D2L learning management systems

Medical Office Manager (EMR Documentation & Workflow Management)

Feb 2025 - Mar 2026

Canadian Heart Care Clinic (Waterloo, ON)

- Manage front-desk operations and coordinate patient flow across multiple cardiology services-including ECGs, echocardiograms, Holter monitors, and cardiologist consultations-ensuring timely transitions
- Oversee end-to-end service workflows, monitor service level agreements (SLAs) and key performance indicators (KPIs), and administer billing, insurance claims (OHIP/private), and payments efficiently, resolving discrepancies to maximize operational efficiency and patient satisfaction
- Maintain accurate and confidential electronic medical records (EMRs) using systems such as Juno EMR, ensuring compliance with PHIPA, ECG/EKG, and clinic standards, while distributing vital information between patients, technicians, and cardiologists to support high-quality care

Volunteer | Earth Day Community Clean Up

Apr 2022

Town of Harrison Environmental Health Division (Harrison, NJ, USA)

- Executed focused environmental cleanup by categorizing and sorting recyclables from general waste
- Promoted sustainability efforts by helping to recruit additional volunteers to increase cleanup effort results
- Supported regional sustainability goals by picking up waste from protected green spaces and local wildlife habitats
